

TEN X SHOOTING CLUB, INC.
853 RANSOM ROAD
LANCASTER, NEW YORK 14086
<http://www.tenxshootingclub.com>

The next general meeting is Tuesday June 7, 2011 at 7:00 PM

- Our first 2700 match of the season is Sunday, June 12. As always, we need members to help staff the shoot. Attached is a complete summer work schedule. If you are unable to work a match, it is your obligation to find a replacement and/or inform the membership director, Ed Richter, at 655-1956.
- The outdoor range is officially open for use. We depend on members to help mow the grass and trim the bushes. If the grass looks long and you can donate some of your time, the mower and gas is located in the stat house. Fellow member Art Young has been doing the lion's share (if not all) of the work, and it is simply not fair to Art if no one else takes an interest in helping.
- The club is forming a new committee to look into more effective and efficient ventilation systems for the indoor range. We need volunteers to help run down information and quotes for equipment. We will present more information at the meeting.
- As a reminder: "plated" bullets still shed their jackets, which can then become dangerous shrapnel on the range. The indoor range permits only lead bullets. We will do not allow, and will not allow, electroplating that is any thicker than what is on a .22 rimfire jacketed hollow point. EVER.
- WNYOPL began on Sunday, April 30, and it will run through September. It is a fun league and fees are only \$3.00 per match. Also attached is a schedule of dates and locations.

As always, good shooting,

Peter Vasilion
