Awards: Awards are provided by the sponsor and will be given in cash or NRA points.

There will be open and class/category awards with open winners ineligible for class awards. We will use the updated StatOffice 8.0 auto calculations to determine amount and number of awards. There will be a first in each class and category. A Second place requires 8 or more shooters in a given category or classification. A Third place requires 13 or more shooters in a given class or category.

If there are less than five(5) competitors in any class or category, that class or category will be combined with the next higher class, except that if there are fewer than five(5) High Masters, High Masters will fire for open awards only and Masters will not be combined with High Masters.

Consolidation: We reserve the right to delete relays due to lack of entries.
